

INTRODUCING SUPPLIER FINANCING WITH

invoicexcel 

An **easy, cost effective** way to unlock the value of your purchase orders and invoices.

invoiceXcel, a new Bamboo Rose product offering, is an easy, cost effective way to unlock the value of your purchase orders and invoices. Many large corporations are extending their payment terms to 90,120 and even 180 days. This puts many businesses in a cash crunch; adversely affecting working capital.

invoiceXcel allows you to quickly and cost effectively receive early payment from the value of your purchase orders and invoices.

No more waiting up to 180 days for payment.

It's your money, paid early.

Why invoiceXcel?

LOW COST

invoiceXcel costs are significantly lower than other providers – up to 1/3 less – and there are no hidden fees.

NO HIDDEN FEES

We disclose all fees up front.

QUICK PAYMENT

Approved invoices are paid in as little as 1 day, with same day options available.

EASY TO USE

Simply log in and select one or all eligible invoices to be submitted. Our **autoXcel** feature allows all of your invoices to be automatically submitted for accelerated payment, no need to ever log in!

NO CREDIT CHECKS

Invoice payment is based on your customer's credit not yours.

NOT A LOAN

It is not a loan; it is not debt to you. Simply your money paid early.

EASY TO SIGN UP

Our online application takes less than 10 minutes to get started.

SUPPLIERS OF ANY SIZE

invoiceXcel can meet the funding needs of companies large and small; offering facility sizes from \$10,000 to \$300,000,000 and more.

How It Works

About invoiceXcel

invoiceXcel was launched by **Seaport Global** and directly benefits from Seaport Global's diversified and institutional capital raising expertise. Seaport Global is a full service, mid-sized investment bank offering capital market advisory, sales, trading and research services. Headquartered in NYC and New Orleans, Seaport Global has over 375 employees in offices across the US and Europe.

Seaport Global saw a change happening in the marketplace. Large corporates were extending the time it takes to pay their supply chain. This had an adverse affect on a number of small- to medium-sized businesses. Understanding that it's difficult for many of these businesses to secure a bank loan and many working capital providers were charging exorbitant fees, Seaport Global saw an opportunity to help business like yours. invoiceXcel was launched with the goal of aiding companies to unlock the value in their invoices and address their working capital needs.

Xcelerate your working capital today.
